

Just a few of the improvements we have coming to Sterling

1. \$400,000 in pedestrian and bikepaths in Claude Moore Park

2. Modern Restrooms Coming to Gwen Thompson Briar Patch Park

3. Master Plan Coming for Downtown Sterling Government Facilities

The county board of supervisors has approved a \$99,240 contract to have Moseley Architects, prepare a “master plan” for these Sterling area public facilities: Sterling Volunteer Fire Department, Sterling Volunteer Res-

cue Squad, Sterling Community Center, and Sterling Library. First plan, then public comment. There will then be a referendum on a \$27 million bond.

4. \$1 million in renovations for Park View HS Fieldhouse

The teams will not have to stand in the cold or rain when they are in the field anymore.

5. \$120,000 in Improvements on Sterling Blvd

I discovered these Phase Three plans that are being held up

and will be resolved with constant attention and meetings. Phase 1 and Phase 2 plans took three terms of office to finish.

6. \$3 million in Route 7 Road Improvements

We will be adding dedicated turn lanes off of Route 7 onto Sterling Blvd. and off of Sterling Blvd. onto Route 7, with longer turn lanes at 3 intersections. I am making regular phone calls and public comments to “get ‘er done”.

7. Underground Railroad in Sterling

Old Log House At Sugarland Run Farm, will be preserved “in place” as part of a approved Community Assisted Living Village on Route 7 next to the Ark Academy.

This Log House may have been part of the Underground Railroad that saved many lives.
